Director of Human Resource
CCBRT
Dar es Salaam, Tanzania

Dear Sir/Madam

REF : 2023-10
POSITION : **Junior Information System Support Officer**

It is with great honor to apply for the **Junior Information System Support Officer** position for CCBRT based in Dar es Salaam Tanzania. I am a Computer Engineering bachelor's degree holder with working experience in several organizations on software development with different roles such as Software Developer, IT Support, Systems Trainer, and, Junior System Support in various organizations in Tanzania, implementing and/or supporting systems, training users and maintaining systems in areas of national digital ticketing, logistics and hospitality.

My work experience and accomplishments are perfectly suited to the requirements of this position in areas of providing ongoing support for various business application interfaces, evaluating users' needs and recommending impactful solutions. I have experience of timely preparation of periodic SQL based reports in accordance with client requirements, training staff to use systems effectively with both verbal and written instructions.

Additionally, I have experience with enrolling users into systems while controlling, and monitoring user access and maintaining the system's security. My experience working at NIDC (National Internet Data Center) has equipped me with the ability to monitor and optimize applications and database performance and identify the modifications needed in existing applications to meet changing user demands and needs.

It is with great commitment and confidence that I can perform the roles required in this position for fulfillment of CCBRT's goals and growth.

Yours Faithfully
Dereck Donath Olomi.

1. PERSONAL INFORMATION

Name	Dereck Donath Olomi
Sex	Male
Marital Status	Single
Nationality	Tanzanian
Postal address	P.O. Box 35036 Dar es Salaam, Tanzania
Mobile phone	+255 755 236 853
Email	olomidereck@hotmail.com

2. PERSONAL PROFILE

I hold and Bachelor's Degree in Computer Engineering with

- (i) Demonstrated project management and proposal drafting skills
- (ii) A+ CompTIA and ICDL(International Computer Driving License) Certification
- (iii) Experience deploying windows applications with an SQL database
- (iv) Demonstrated ability to create python scripts to support other existing codebases in deployment
- (v) Demonstrated ability to communicate complex concepts in simple terms
- (vi) Excellent oral and written communication skills

3. CAREER GOALS

I am looking for an opportunity to work in software and hardware or development where I can grow, learn, and contribute my expertise. I have a strong passion for working with technology and it is my dream to help my country fully utilize the third Industrial Revolution (Information Technology).

4. LANGUAGE SKILLS

Speaking: English – Fluent, Swahili – Fluent

Writing: English – Excellent, Swahili – Excellent

Coding: Dart – Intermediate, C++ – Intermediate, Python – Intermediate
SQL– Intermediate

5. HOBBIES

Swimming, sketching, reading, and live smooth jazz

6. EDUCATION

TIME	PROGRAM AQUIRED	INSTITUTE
2019 - 2022	Bachelor's Degree Computer Engineering	Seneca College,Toronto, Canada
2017 - 2018	Certificate of high school and advanced secondary school.	Capstone Christian School, Dar es Salaam
2010 - 2016	Certificate of Secondary Education	Capstone Christian School, Dar es Salaam

7. SKILLS

- (i) Demonstrated ability to design, build, and deploy web, windows and android applications
- (ii) Demonstrated ability to work with Dart, C++, Python and SQL languages
- (iii) Demonstrated implementation of applications using Flutter as a front for internal business tools and public websites
- (iv) Demonstrated implementation of SQL database for both local and online operations
- (v) Skilled in implementing and maintaining local, private, and public networks
- (vi) Demonstrated project design and proposal writing skills
- (vii) Experienced in using GIT to track application changes, testing and coordinating upgrades and rollbacks(downgrades)
- (viii) CompTIA A+ certification
- (ix) ICDL (International Computer Driving License) Certification (Word, Excel, PowerPoint, Access, and Project)

8. WORK EXPERIENCE

8.1 NIDC (National Internet Data Center)

Software Developer Internship (November 2021-April 2022)

Project: Ferry vehicle recognition and ticketing gate.

Responsibilities:

- Implemented a vehicle recognition machine learning model using OpenCV and python
- Created python scripts to feed ticketing system with vehicle information
- Implemented APIs to communicate with Ticketing Server
- Employed remote access technologies such as SSH to remotely access and debug systems “On-the-Ground”
- Documented work completed
- Implemented Firestore Real-time Android application to track and display connectivity status of project servers

8.2 Marangu Trucks (Contractor Software Developer)

- Designed and Developed Marangu Trucks [website](#) using Flutter and the front end and Cpanel as the backend
- Developed email-based communication between site visitors and **Marangu Trucks Customer Service**
- Provided post-deployment support for **Marangu Trucks Customer Service**
- Configured domain-based email addresses for **Marangu Trucks** staff

8.3 Whitemark Hotels (Software Developer, IT-Support, and Trainer) (September 2022 - Current)

- Demonstrated ability to analyze IT infrastructure and systems and draft a comprehensive proposal for solutions
- Designed and deployed a Hotel management system using Flutter and SQL
- Demonstrated ability to explain complex technical topics in simple and understandable terms
- Demonstrated user-based network management involving user enrollment, access control and security.

9. Achievements

- Executed my phased proposal for upgrading the network infrastructure to suite current and future needs effectively at Whitemark Hotels.
- Submitted a proposal for the utilization of devices to detect abnormal usage of electricity thus enabling management to solve costly problems as they occur and not when the damage is done at Whitemark Hotels
- Developed a software patch for the vehicle recognition and ticketing system at the Kigamboni ferry crossing that saved the government millions of shillings in development and downtime costs at **NIDC**.
- 1st Place winner of UJUZI Hackathon Challenge 2022. My team with me as the elected leader developed a pitch for a solution for Dar es Salaam's famed traffic jam problem with a positive impact on climate change.
- Head prefect at Capstone Christian School (2016-2018)
- Founder of the School Magazine initiative at Capstone Christian School (2018)
